Using Rmarkdown and Github for reproducible and collabrative research

Jinliang Yang

November 5, 2014

Setup your project

- using **github** do the version control
- using **packrat** do the R package dependency management
- using **ProjectTemplate** to layout the directories

```r
#install.packages('ProjectTemplate')
library('ProjectTemplate')
create.project('temp')
system("mv temp/* .")
system("rm -r temp/")
```

Or simply just copy everything here!

something

R Markdown

This is an R Markdown presentation. Markdown is a simple
formatting syntax for authoring HTML, PDF, and MS Word
documents. For more details on using R Markdown see
